ARTHE Studio offers technical consultation on site, locating, quotation development, custom made, installation and service. We provide complete services for developers and their end clients.

Our aim is to even provide services to the most demanding customers. We aim to make sure that the client obtains service and other interior advice, in addition to quality products.

We rely on a team of qualified staff who are trained by our suppliers. They can enforce and implement their own ideas as well as those of our clients. Every year, we bring in innovation, selected throughout Europe.

ARTHE Studio is located in Prague 6, at the corner of Generála Píky Street and Buzulucká Street. We present functional samples of real sizes. Measurements and implementation takes place throughout the day and also outside the Studio's normal opening hours. A meeting in the sample room with expert advice must be pre-arranged by phone or e-mail.

ARTHE has been active in the market for 12 years and its activities exceed the established standards of shading techniques and decorators. The range of services is expanding flexibly according to the customer's requirements. We listen to our clients and implement their appropriate ideas.

SHADING – TEXTILIES – INTERIORS

From design to implementation, including expert advice

Blinds are an invincible classic among decorative sun protection products and curious views. Clear lines, reduced design and easy operation.

Roman blinds are the most innovated form of classic curtain. They provide a stylish atmosphere and create an unmistakable sense of pleasant living.

Twinrollo combines the advantages of blinds. Alternately opaque and transparently woven stripes of fabric allow for smooth light regulation.

Blinds

Plisse/Duette

Plisse is a modern capacity in the field of sun protection. Regardless of whether the window has a triangular, trapezoid or circular shape. It manages any architectural challenge easily.

Original Duette with a honeycomb structure increases insulating ability thanks to the air chambers between the fabric strips. Dazzling daylight is changed to softly pleasure light.

Sliding walls panels are recommended for shading large glass surfaces. They can be moved sideways and layered arbitrarily. The style and design of the materials used in the panels are almost as unlimited same as the Roman blinds.

Sliding Walls

The curtain's motor control is a common requirement. The curtains can be connected to the smart home system and can be controlled with mobile application, remote control, wall switch or a touch motion system triggering the drive by pulling the curtain. Of course, it's a quiet motor - 53dBA.

Motorised Rails

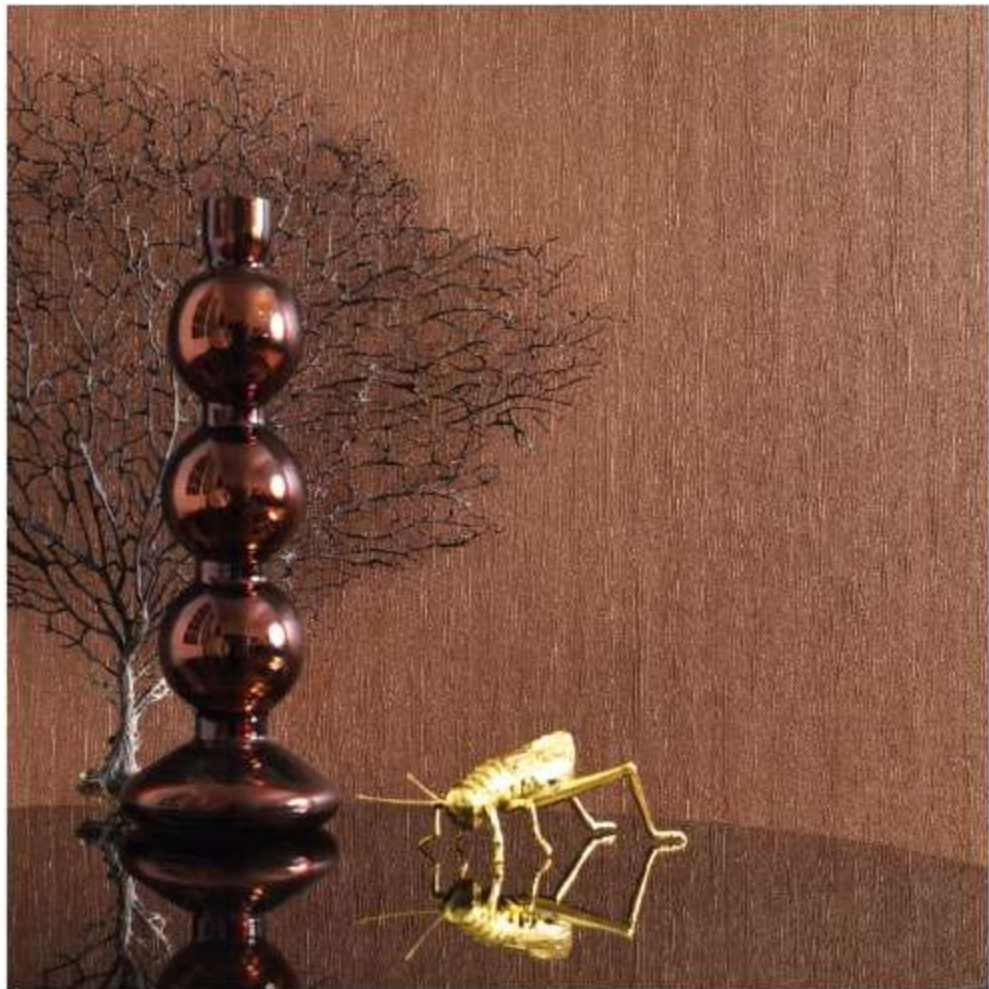

Choose curtains and nets from a wide range of fabrics in the ARTHE studio.

The interior will improve acoustically, added personality and the whole space will be much cosier. In our product range we offer antibacterial, non-flammable, water repellent materials or materials with acoustic coefficients. Therefore the curtains soundproof the room and help heat comfort. We will be happy to help you choose the right one for you.

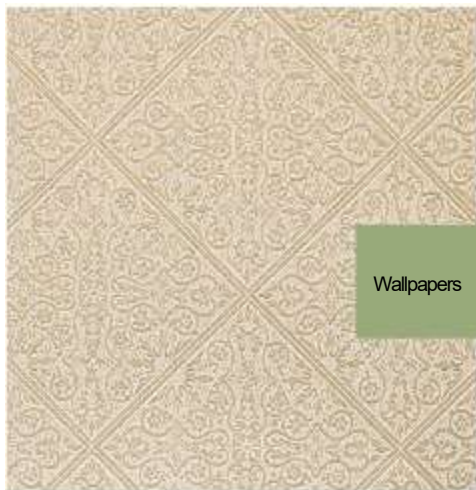

Textiles

Wallpapers are an integral part of any interior. Their acquisition and installation isn't costly, but the effect is very convincing. You can choose from paper, vinyl and textile materials. The product range is widespread with 3D patterns and acoustic panels.

Wallpapers

You can also choose your new carpets from us.
Fitted carpets or edged carpet pieces. Including children's
motives.

Accessories and decorations according to yours taste. A fun game with materials and shapes.
